Attendance is important because students are more likely to succeed in academics when they attend school consistently.

- **Good Attendance (9 or fewer days):** Students with good attendance generally achieve higher grades and enjoy school more. Students make the most of their educational opportunities if they attend school every day and on time.

- **Warning (10-17 days):** When students miss a day of school it actually puts them two days behind their classmates.

- **Chronic Absences (18+ days):** Missing just one day every two weeks can add up to 18 days in a year. Excused and unexcused absences represent lost time in the classroom and lost opportunities to learn.
