

Student and Parent PowerSchool Access

Shortridge High School May 2020

Assessment at Shortridge High School reflects the staff's aim to encourage creative and critical thinking and to develop knowledge and skills to analyze, synthesize and evaluate. Unlike traditional A to F grading where grades are subjective, at Shortridge, a student's work is evaluated in relation to defined levels of achievement.

In an attempt to better communicate your child's progress, you can login to PowerSchool and see a grade. That grade reflects your child's progress so far this semester.

More information on PowerSchool access is online: <https://myips.org/shortridge/powerschool-access/>

If you know your account info, login here: <https://powerschool.myips.org/public/>

Navigation	
 Grades and Attendance	Grades & Attendance shows information for the entire school year
 Missing Assignments
