CHOOSE YOUR OWN FUTURE

Think about your college and career goals to find the best fit.

ARSENAL TECH has the widest range of academies and pathways and offers them on a college-like campus.

Its 5 academies include Law & Public Safety, Media Arts, Skilled Trades & Human Services, STEM, and Teaching, Leading & Learning, plus the Indiana College Core.

CRISPUS ATTUCKS provides personalized advising, community partnerships, and clear routes to advanced degrees and direct employment at IU Medical Center.

Its 2 academies include Healthcare and Computer Science, plus the Indiana College Core.

GEORGE WASHINGTON is IPS’s smallest high school, combining real-world preparation with a family feel.

Its 3 academies include Advanced Manufacturing, Business & Finance, and Information Technology.

SHORTRIDGE is the only free International Baccalaureate-for-all high school in Indiana, including career pathways in arts and communications.

Its 2 academies include IB Diploma Programme (DP) and IB Career-related Programme (CP).

12 COLLEGE AND CAREER ACADEMIES 4 ACADEMY HIGH SCHOOLS 33 FUTURE-READY PATHWAYS
You Belong at Crispus Attucks

Crispus Attucks is more than a high school. We are an inclusive, diverse, and equitable learning community where students feel like they belong. Whether you complete the Indiana College Core or choose one of our pathways to careers in healthcare or computer science, your advisor, teachers, and peers become your greatest cheerleaders and champions. We look out for one another at CAHS. We motivate and inspire you to stick with your plan, step up, and see it through — celebrating every win you chalk up, in class and out. We care about you. We are invested in your future. That is the Crispus Attucks Way.

“To make sure every student feels known, one teacher meets with the same small advisory group every day for four years. By the time you graduate, you’re family.”

LAUREN FRANKLIN, PRINCIPAL AND DAUGHTER OF TWO PROUD CRISPUS ATTUCKS ALUMNI

Academies & Pathways
Academics at Crispus Attucks focus on the Indiana College Core curriculum, with special emphasis on two College and Career academies.

HEALTH SCIENCE ACADEMY PATHWAYS:
• Biomedical Sciences
• Central Service Technician
• Healthcare Specialist (Nursing)
• Medical Assistant (CCMA)
• Physical Therapy

COMPUTER SCIENCE ACADEMY PATHWAY:
• Computer Science

Our unique advisory program makes student guidance priority number one. Students create lasting bonds with faculty members and peers in advisory groups that meet together consistently for four years.

Tiger Athletics
Sports at Crispus Attucks have a storied history, dating back to the first all-black team to win the state championship. That proud legacy emboldens today’s Tigers, who wear the green and gold as they compete in 13 sports:

• Baseball
• Basketball
• Cross Country
• Football
• Golf
• Sideline Cheer
• Soccer
• Softball
• Swimming
• Tennis
• Track
• Volleyball
• Wrestling

After Attucks
With support from both the lifelong friends they’ve made here and the skills they’ve honed, our graduates have gone on to become employed upon graduation in livable wage jobs, enlist in the military, and enroll in higher education institutions including:

• Ball State University
• Butler University
• Central State University
• Indiana State University
• Indiana University - Bloomington
• IUPUI
• Ivy Tech Community College
• Marian University
• Purdue University
• Tennessee University
• Vincennes University

Amazing Opportunities: The IU Health Fellowship and the IUPUI SPAN Program
Advancing career pathways to jobs in healthcare, the IU Fellowship at CAHS offers qualified students a job at Indiana University Health and tuition assistance toward a 2- or 4-year college degree. The IUPUI SPAN program offers more great preparation for college, providing students access to dual enrollment courses at Indiana University-Purdue University Indianapolis.
Where High School is Personal

Located in one of the most culturally diverse neighborhoods in Indianapolis, George Washington values diversity, community, and connection for the sake of advancing you toward your goals. Our principal and faculty take the time to get to know your personal history, career aspirations, and other memorable facts. Whether you want to go to college, get straight to work, or join the military, advisors and counselors who get you will keep you in touch with the purpose behind the choices you make every day. Corporate partners, who offer paid internships and authentic industry experiences, help make your dreams that much easier to realize.

/GW Continentals
Enroll in one of George Washington’s three Academies and you’ll quickly zoom in on one of seven technical education pathways. Each one features corporate partnerships with top Indiana employers and the potential to earn certifications and dual credit. What’s more, GW’s size ensures you receive personal guidance on how best to connect your high school life to your long-term goals.

Advanced Manufacturing Academy
Students in the Automation and Robotics Pathway explore electrical, mechanical, and computer technology and gain hands-on experience as they learn to install, maintain, modify, and repair mechatronic systems, equipment, and parts.

Creative students with a passion for problem solving in teams use the Design Technology Pathway to prepare for careers in industries as varied as engineering and fashion. AutoCAD certification is an option.

Work-based learning and industry partnerships may lead to paid internships with top employers such as Eli Lilly & Company and Ascend Indiana, which make it very easy to envision your future self on the job.

Business & Finance Academy
Imagine making business decisions at a major corporation or a company of your own. In partnership with the Indiana Farm Bureau, the Business Administration Pathway can help you get there.

Want to apply your math skills to making money grow? The Banking and Investment Pathway provides hands-on experiences in partnership with First Financial Bank.

Every manufacturer who moves goods from creation to consumption needs experts to find efficiencies every step of the way. The Supply Chain Management Pathway offers logistics certifications that put recent grads a step ahead.

Information Technology Academy
Ever wonder how computers talk to each other? What makes email, social media, multiplayer games, and global information sharing possible? The Networking Pathway will stoke your curiosity about the inner workings of computer networks and prepare you for an IT role.

If you want to develop the games, apps, and other software programs that run on desktops, cell phones, and other machines, check out the Software Development Pathway. For their capstone experience, students produce a working software product that adheres to industry standards.
Access for All

Pulitzer-Prize winning author and Shortridge alum Kurt Vonnegut marveled at his alma mater. It had a daily newspaper, debate team, jazz band, fencing, and more — all during the Great Depression. “I wanted everybody to have such a school,” he said. Today, Shortridge has even more to boast about. We are the only high school in Indiana to offer all students the benefits of an IB World School — for free. Through the International Baccalaureate curriculum, inquisitive students become independent learners, critical thinkers, creative problem solvers, brave communicators, and productive collaborators who are agents of change and service. And everybody has access to it.

@Shortridge
@shortridgehighschool
Spanish teacher and service-learning coordinator Sarah Tekolste says: “Shortridge has the most accessible IB program in the state. It’s really awesome that we’re able to provide it to families in our community for free.”

**IB PROGRAMMES**

**IB DIPLOMA PROGRAMME (DP)**
Ideal preparation for college, this program develops well-rounded, globally minded, service oriented students who excel in traditional academic subjects and develop the capacity to make ethical decisions. The program's unique Theory of knowledge course (TOK) invites reflection upon and understanding of the nature of how we know what we know. DP students have been proven to surpass their peers in the ability to handle demanding workloads, manage time, and meet others' expectations.

**IB CAREER-RELATED PROGRAMME (CP)**
Students in the IB Career-related Programme pursue in-depth study and real-world experience related to a specific career pathway, often in the performing arts. CP helps make Shortridge a performing arts magnet school in Indianapolis.

*For more information on IB programs, visit [www.ibo.org](http://www.ibo.org).*

**MORE BENEFITS**

**THE KURT VONNEGUT WRITING CENTER**
Staffed by Butler University students, the Center is open to all Shortridge students during and after school.

**EXCEPTIONAL ACADEMIC CHALLENGE**
In addition to taking core classes, all students study a foreign language and complete a capstone project or research paper.

**SERVICE OPPORTUNITIES**
Meaningful service experiences and student-designed projects fulfill the IB requirements for creativity, activity, and service.

**SPORTS & PERFORMING ARTS**
The Ridge boasts more than 350 student-athletes across 20 varsity teams and 22 performance groups including choir, dance, orchestra, band, and theater.

**STUDENT OUTCOMES**
Recent Shortridge graduates have gone on to colleges and universities such as:

- Ball State University
- Butler University
- Carthage College
- Central State University
- Greenville University
- Indiana University – Bloomington
- Indiana State University
- Ivy Tech Community College
- Kentucky State University
- Lane College
- Marian University
- St. Joseph’s College at Marian University
- Purdue University

**A SHORTRIDGE TO DO LIST**
Take college classes for credit. Complete a capstone experience. Volunteer in the community. Write for the Shortridge Daily Echo. Organize events for the Student Government Association, the Black Student Union, or both! Be an agent of change. Act, make music, build a robot. Play for the Blue Devils. Meet loads of different people. Travel the world. Take risks. Make lifelong friends, and get ready for college and life.
Challenging, personalized academics on a huge, historic campus as beautiful as some of the nation’s top colleges — that’s Arsenal Tech. Equipping students with everything from industry certifications to college credits, our offerings are more abundant and more varied than you’ll find anywhere else. Individual and group advising provides the structure and attention that keeps this diverse student body engaged. Small student cohorts and extracurriculars — from sports to clubs — bring opportunities to find your people and make yourself known for doing what you love. Arsenal Tech invites you to think big and walk boldly on the future pathway of your choice.
Broadcast TV Teacher Antonio Cospy says: “Arsenal Tech students have a strong desire to be and do better. We provide structure, resources, and community to give students the grounding and support they need to succeed year after year.”
